

# Lunch Performances

*Performances will begin at 1:00pm both days.*

## Day 1 - Wednesday, November 6, 2024

**Presenter: Kaylie Glenn, B.S. Neuroscience, Founder and President of the Day By Day Project**

The Memory Disco: A Care Partner's Tool for Music-Centered Care

Discover how music can be a powerful tool for dementia care. Learn practical strategies to incorporate music into daily routines and create meaningful connections. The Memory Disco™ is a tangible result of this approach, offering a multisensory experience that enhances well-being and supports individuals living with dementia. This introduces music as an accessible tool, promotes intergenerational connection, and presents new perspective on dementia care!

## Day 2 - Thursday, November 7, 2024

The Dancing Wheels Company & School joined forces with hospitals, memory care facilities, facilities for aging adults, and individual caregivers and created Making Memories: A Journey through Dementia (MMJTD) to increase the understanding and recognition of diseases related to dementia and Alzheimer's.

MMAJTD is an evening-length program composed of two dance works choreographed by Mark Tomasic ("Proof" and "Three 4 Ann"); video documentary featuring interviews of people living with dementia, caregivers, and dementia/Alzheimer's health care professionals/specialists; plus, audience discussion.

*This presentation was made possible by the New England Foundation for the Arts' National Dance Project, with lead funding from the Doris Duke Foundation and the Mellon Foundation.*
